MEMORANDUM

TO: Cooperative Extension Service Offices
FROM: Jerry E. Fischer, State Apiary Inspector
SUBJECT: Beekeepers Who Collect/Remove Stinging Insects and Sell Honey

Enclosed please find a list of beekeepers who are interested in collecting honeybee swarms and removing honey bee, yellowjacket and hornet nests in your area. Also, there is a list of beekeepers that have honey for sale. The list should be useful to you in helping persons who need assistance in dealing with the above insects. Please feel free to give individuals who call your office the names, addresses, and telephone numbers of beekeepers that can help them out. The list should be especially useful during the months of May, when you will receive calls regarding honey bee swarms.

The list provides the following:

- (a) Beekeepers that collect honey bee swarms.
(b) Beekeepers that remove honey bee nests from inside of hollow trees, walls of buildings, etc.
(c) Beekeepers that remove yellowjacket and hornet nests.
(d) Beekeepers that have honey for sale.

The list is in zip code order to make it easier for you to locate someone that lives near the person calling. You will find that some beekeepers are willing to perform services in counties other than where they live. Therefore, your list may contain persons that live in counties other than the county you are located in.

The list was compiled from information provided by beekeepers on honey bee colony registration renewal applications returned to my office.

If you have any questions, please feel free to call me.
